Hanns Martin Goldberg

OBITUARIES

Former consultant surgeon Manchester (b 1913; q University College, London, 1940; FRCS), died from pneumonia on 31 July 2008. After initial training in Heidelberg and Berlin, Hanns Martin Goldberg left Germany in the enforced emigration of the Hitler period. Thanks to the support of University College London, he was able to resume his studies there. Gaining surgical experience with the British Army, he became a consultant at an early age in Manchester, which became his home for the rest of his life. His career encompassed a full range of surgery specialties at the Manchester Jewish Hospital and Booth Hall Hospital for Children and later the North Manchester University Hospital. He led an active retirement following his interests in mathematics and its history. Predeceased by his wife, Mary, in 2007, he leaves three children and four grandchildren. **David Goldberg**
